

44 RAI OF LAND IN PHANG NGA WITH PANORAMIC SEA VIEWS

Lot size: 70400

Price: 66000000

The 2 land deeds total about 44 Rai. It is beautiful slope land right at the mangrove coast on the most Southern Tip on Phang Nga facing the north and east coast of Phuket Island.

There is an official canal going through the mangroves giving the land direct access to the sea, which in the old days was used to get the long boats in to load the rubber from the plantations. This slope land with stunning seaviews is 25 minutes drive from Phuket International Airport and a new

road is planned and partly under construction going from the Sarasin Bridge along coast directly to the land. When finished this will shorten the drive to and from the airport.

Land is offered for sale at THB 66 Million, or just THB 1.5 million per rai.
