The Banyan Tree Group is creating a new dimension in resort style living with its first branded condominiums in Thailand under the Angsana brand. This is one of the last investment opportunities in an absolute beachfront property on Phuket's preferred west coast and on Bang Tao beach itself within Laguna Phuket, with a unique option for the condominiums to be managed by Angsana Phuket Resort.

The first astute investors to capitalise on this opportunity will discover exclusive freehold properties configured to take full advantage of beachfront frontages. Just metres from the sea, these are designed in a unique Thai architectural style to blend with their lush tropical surroundings. With only two apartments per floor every residence offers expansive internal and external living areas. Each condominium even boasts its own private pool at the fringes of its broad outdoor patio. There is also secure parking for residents and their guests.

Prices range from THB 32 million to 52.2 million.

Foreign freehold options are available.
