This contemporary lap pool villa is situated within a chic east coast development, appealing equally to permanent residents and overseas investors, particularly to those who are looking to be part of an exclusive community in a private, serviced luxury home designed by an internationally acclaimed architect.

The design of the residence combines simple, stylish elegance with integration of outside and inside living spaces. While the architecture is contemporary, natural local materials have been used where possible to integrate elements of Thai culture. The villa provides 269 sqm of living area, with the open plan living and dining areas resting alongside the pool. The spacious terrace blurs the distinction between indoor and outdoor living. The extensive on-site facilities provided by Twinpalms Management, an environmentally friendly infrastructure and first class property management and concierge services, ensure that owners enjoy carefree ownership.

With its own 15 meter long private lap pool, established garden and stunning master bedroom suite, the villa offers excellent value and is available for sale fully furnished.
