We are a young property developer of high-end luxury residences in Phuket, and a subsidiary of Mongkon Mahakit , an internationally leading gold jewelry manufacturer since 1987. For years, Mongkon Mahakit has proudly been working with the world's top jewelry brands in producing the products of great design and quality.

Through our affiliation with Mongkon Mahakit , Pavara Development inherited the long-established tradition of balance and excellence in design. We also pay attention to meeting great expectations of discerning clients for high-quality product construction. We strive to become the best award-winning property developer, but also a revolutionizing force for homeowners' better lifestyle and quality of living, and for property investors' higher performing assets.

To establish our footprint in Phuket's real estate market, two exclusive collections of luxury pool villas— Pavara Khiri in Laguna/Pasak area, and Pavara Ocean in Layan—are developed, with market value of over 1.5 billion bht. The Pavara Khiri Collection is scheduled to officially launch in the first half of this year, 2023.
