Spectacle over the sea

This oceanfront villa is set right above the northern end of the Nai thon beach and bay, and is the closest of all villas to the resort facilities, which are a short stroll along the beach path to the restaurant and main areas.

The villa has a spectacular entrance, from which the 800 square meter top level of the villa offers an enclosed dining pavilion, an open living sala right over the sea, the centerpiece 20 meter pool and the 90 square meter master bedroom. One level below, set among tropical gardens and the gentle slopes down to the sea are the 2 x 90 square meter guest suites and a spacious living sala, which can either air-conditioned or open to the sea breezes.

This very special residence covers 3,000 sq m. of land and embraces the sea from all areas of the villa. The property also has direct access to the beachfront and hotel facilities.
