

SUGAR VILLAS - HIGH-END POOL VILLAS OVERLOOKING KAMALA

Bathrooms: 3

Bedrooms: 3

Lot size: 377

Price: 20500000

Property size: 396

Year built: 2019

Sugar Villa is an extremely private gated community consisting of just six super-luxury pool

villas.

The project is located high on 'Golden Hill' overlooking Kamala in the centre of Phuket's desirable west coast, which means that all of the six villas here benefit from glorious views over the blue waters of the Andaman Sea. This location offers quick and easy access to Patong Town, the Laguna community and it is also just a short journey to and from Phuket International Airport.

All of the six villas at Sugar Villa are three-storey detached buildings, built in a sleek and modern style inspired by the best in modern art and architecture. The three-storey designs provide a huge amount of usable space in each of the villas.

The remaining villas in the community are three bedroom homes, built on land plots from 377m² up to 455m². The gardens for each of the villas will be beautifully landscaped and will contain a sala.

The developer has spared no expense on the project to ensure that each villa is built to the highest standards. All of the villas here have private infinity pools of 48m² and jacuzzis on the second floors so that residents can enjoy the views while they are swimming. All of the tiling used in the villas is imported from Italy, while all of the built-in furniture is made from the finest teak. All fixtures and fittings for the kitchen and bathroom are also sourced from the very best suppliers. All of the villas here feature the latest in Smart Home technology, allowing owners to adjust all of the setting for air-conditioning, security and home audio from an app on their smartphones. Even the baths, showers and toilets can be electronically programmed for the ultimate in comfort and luxury for all residents. In order to keep electricity costs down, the roof of each villa is equipped with solar batteries which will cover up to 70% of each villa's electricity requirements.

The project already has a show unit open so that interested buyers can see the quality of the villas for themselves.

Prices of the remaining units range from THB 20.5 to 21.5 million.
