The Sunrise Premium Villa will be the biggest villa in the development as the building area is over 950 Sqm. and 600 Sqm. are indoor. There are 4 guest apartments on the ground level, on the second level will be a living room, kitchen, dining, 15 meters infinity swimming pool, almost 100 Sqm. big terrace and a en suite guest bedroom. On the 3rd level is the master apartment with 7 meter long infinity pool and lot of space which can use as office, fitness or another guest bedroom.

The indoor elevator goes till the 4th level where the roof terrace is, in case there is a party the guests no need to go through the villa, just go straight up to the roof. The developer can customize according to the wishes of the buyer instead of 6 bedrooms to be 5 or 4 whatever they like.
