Granary Villas is an exclusive gated development of modern loft style villas in an idyllic woodland setting of 4 rai in the booming Pasak Area.

Inspired by the architectural design of a barn house in the western countries, the developer has brought this architecture all the way to Thailand, in the heart of Phuket. The property feels just like a modern farmhouse, a compelling way of life for those who yearn for the rural idyll reinterpreted in a crisp, contemporary way combined with a modern take.

The properties will be built with floor-to-ceiling windows, exposing the environments and welcoming the natural lights. The glass stretches not just vertically but horizontally, making it feel as though you are living in the open air.

The light-filled rooms combined with the high ceilings create spectacular living rooms, dining areas, and even bathrooms. The abundant light these windows let in; the kitchen is bright and cheery in the morning, while the living room glows as the sun sets.

This Development gives the sense of peace, relaxation and harmony with nature that is good for residential and holiday home. You will wake up to the songs and the scents of the countryside, while still within easy reach and busy main areas of Bangtao and Laguna.
