The Residence Prime Villas Cherng Talay project is set in a rapidly developing residential area near the Laguna Phuket Complex, making it a convenient choice for those seeking a modern and stylish living experience. Developed by one of the most successful property developers in Phuket, this project comprises 28 three-storey pool villas, each designed with contemporary smart home technology.

The ground level of these villas offers practical amenities, including a double carport, wine cellar, storeroom, and a self-contained 2nd guest bedroom complete with a private living and dining area, as well as a kitchenette. An indoor staircase leads up to the middle level, which boasts a bright and airy open-plan living and dining area, along with a European-fitted kitchen that features an island and breakfast bar. The living area is accentuated by a double-height ceiling, glass walls, and large doors that open up to a private swimming pool with waterfall feature, creating a serene ambiance for relaxation and entertainment.

The top level of the villas is dedicated to the master and 1st guest bedrooms, which are designed with a double-height open space that overlooks the living area below. The master bedroom comes with a walkthrough closet, adding a touch of luxury to the living experience. Both bedrooms have ensuite bathrooms with separate bathtubs and showers, offering a sense of comfort and convenience. The Residence Prime Villas Cherng Talay project is a perfect choice for those seeking a contemporary living experience in a popular location in Phuket.
