Bathrooms: 6

Bedrooms: 4

Lot size: 1400

Price: 150000000

Property size: 2000

Year built: 2009

One of a Kind - a Work of Art.

The Villa has been designed to take advantage of the fabulous panoramic ocean / beach views. Every room has a wonderful view of the Andaman Sea. The panoramic sea view takes in the Surin horizon with the "Amanpuri" headlands, across Bang Tao beach ("Trisara" in the distance) and sweeping across the distant hills and rocks of Phang Nga.

Every day, this view will lift your spirits.

Baan Shambala has been designed to maximise open space living. A large open-plan chef's kitchen with entertaining bar open across to dining area and stretching into the large living room (30 meters). On the eastern side of the living room, spanning its full distance, are large sliding glass doors that open up fully into a very special area of natural rock. This rock area has been beautifully planted and is just a wonderful part of the villa for sitting and feeling "one with nature". A relaxing and spiritual area. The deck is sculpted around the rocks natural shape, this enchanting and natural feature stretched the complete length of the living space.

To the west of the living room are again large glass doors that open fully onto the deck of the 20 meters infinity swimming pool with the dramatic Andaman Sea views.

Open all doors on the east side and west side of living room together and you have a spectacular space, encompassing rock to sea. Stunning, rare.

This is especially a wonderful Villa for both family and entertaining.
